

OLENA TONIEVA

Mobile (918) 580-5000 | Email: elgveni@gmail.com | Location: Tulsa, OK

GOAL

To secure a full-time position as a Senior Software Engineer where I can utilize my experience and skills to enhance and improve the building, development, testing, deployment, and maintenance of software in a remote or on-site environment

PROFESSIONAL EXPERIENCE

Senior Software Engineer | Oct 2025 – Dec 2025 Contract

QuaerisAI, Charlotte, NC

Syntelli Solutions, Inc. is a data analytics and AI consulting firm that transforms complex data into actionable business insights.

- Developed and maintained automated tests using Python and C#, improving code quality and minimizing regression during deployment
- Refactored backend code to facilitate integration with AI and LLM-based systems
- I have experience working with cloud environments, APIs, Docker container services, and AI-driven applications in a fast-paced Agile team. My work helped speed up releases and made our systems more reliable

Tech Stack: Python, C#/.NET, Docker, Azure, MongoDB, PostgreSQL, REST APIs, AI/LLM Integration, Snowflake, Angular, Kubernetes, Microservices, JavaScript, TypeScript, cybersecurity

Senior Software Engineer | Dec 2021 – Jun 2025 Contract

Dinamicka Development | Canada/Ukraine

Dinamicka specialises in the development of Web Apps, CRMs, SaaS, E-Commerce solutions, management dashboards, corporate websites and mobile development.

- Built, tested and deployed complex web applications on microservices using NodeJS, Python, C#/.NET, Typescript and Ruby on Rails and Azure/AWS for clients from Australia, Europe and the USA
- Followed the product roadmap to produce and implement new features. Worked in close collaboration with the front-end team and clients
- Wrote, reviewed, and debugged code, building secure solutions to technical problems and improving code quality through unit and integration testing, reducing production issues and minimizing maintenance effort

Tech Stack: NodeJS/NextJS, React, Python, C#/.NET, Docker, AWS, Azure, JavaScript/TypeScript, Unit Tests, Selenium Test (Cucumber)

Software Engineer | Dec 2013 – Jun 2021 Contract

Web-Pantera | Chiang Mai, Thailand

Web-Pantera creates custom web applications, e-commerce platforms, online marketplaces, and business management systems for clients worldwide. In addition, I provided technical support to the existing features:

- Built an admin panel for video hosting platform like Netflix, which enabled viewing advertising partners, their revenue, information and ad performance
- Developed a backend for the online clothing store which allowed customers to design their own clothes using a constructor
- Wrote a secure online chat for a medical practice that allowed the doctors to provide an online consultations and answer patients' questions, as well as save chat history and all records

Tech Stack: C#/.NET, Git, MySQL, AJAX, JavaScript, OOP, NodeJS, ExtJS, jQuery, VueJS, ElasticSearch, Restful API

Junior Developer | Dec 2010 – Nov 2013

Template Monster | Mykolaiv, Ukraine

Template Monster is a digital marketplace that allows users to build and customise websites using HTML templates and other tools

- Participated in the platform development from concept to final product in a team of 10 people, using all aspects of MySQL/PHP programming
- Maintained existing and developed new feature sets, which allowed users to add new website sections, select designs and improve functionality

SKILLS

C#/.NET | Angular | Python | JavaScript/TypeScript | REST APIs | Microservices | LLM | FastAPI

Azure | AWS | Google Cloud | Docker | Kubernetes | Terraform | CI/CD | Jenkins | Git | RabbitMQ

PostgreSQL | MySQL | MongoDB | SQL Server | Oracle | Elasticsearch | ORM

JWT | OAuth 2.0 | WebSockets | Entity Framework Core | SOLID | Selenium

GitHub Copilot | Claude | Cursor

EDUCATION & TRAINING

Bachelor's Degree in Software Engineering | IT Academy STEP, Ukraine — 2008

NodeJS Course | CourseHunter | 2020

Python Project for AI and Application Development | IBM | 2025

Django Web Framework | META | 2025

C# for .NET Developers | Board Infinity | 2025
