Professional Summary

Reliable and hardworking technician with 1.5 years of hands-on appliance repair experience and 5 years of professional commercial driving experience. Skilled in troubleshooting mechanical and electrical systems, diagnosing equipment issues, using hand and power tools, and working independently in customer-facing environments. Seeking an opportunity to start a career in the HVAC industry and apply strong technical and problem-solving skills.

Work Experience

Appliance Repair Technician (2024–2026)

- 1 Diagnosed and repaired residential appliances including refrigerators, freezers, washers, dryers, dishwashers, ovens, and microwaves.
- 2 Performed electrical and mechanical troubleshooting using multimeters and diagnostic tools.
- 3 Replaced motors, sensors, control boards, heating elements, pumps, valves, and other components.
- 4 Read technical manuals, wiring diagrams, and service documentation.
- 5 Communicated directly with customers and explained repair recommendations.
- 6 Maintained service records and managed daily appointments.

Commercial Truck Driver (2019–2024)

- 1 Operated commercial vehicles safely across multiple states.
- 2 Conducted pre-trip and post-trip inspections and identified mechanical issues.
- 3 Maintained compliance with DOT regulations and safety standards.
- 4 Managed schedules, route planning, and delivery documentation.
- 5 Demonstrated strong responsibility, time management, and independent decision-making skills.
