I've been dispatching trucks remotely for about 6 years now.

I've done pretty much everything from booking and negotiating loads with brokers on DAT, Truck-stop to talking to drivers, planning routes, handling billing, detention and lumper requests, and taking care of all the back-office work. I specialize in working with Flatbed, Step- Deck, Conestoga but in the past have experience working with almost every type of trailer: Dry van, Reefer, RGN
